Finishes wear off, Sunbrella performance is built-in

Abrasion Resistant

Sunbrella fabrics are made for everyday use-resisting wear while remaining comfortable and strong, without feeling heavy or stiff.

Stain Resistant

Stain resistance is integrated into Sunbrella fibers, so our fabrics sustain lasting protection against spills and messes.

Fade Resistant

Sunbrella fabrics hold their vibrant color and resist the fading and the degrading effects of sunlight thanks to fibres saturated to the core with highly UV-stable pigments.

Sunbrella Acrylic Yarns

Sunbrella fabrics' performance doesn't stop at the finish-it's engineered into the core of each fiber, maintaining color, and strength through cleaning, normal wear and exposure to natural light.

Other Yarns

Many fabrics are made with surface finishes that can gradually wear away and do not protect the integrity of the fabric.
